

Programming Assignment #1

It's About Me!

CS 1428.003 and 004, Fall 2014

Instructor: Jill Seaman

Due: before class **Wednesday, 9/3/2014** (upload electronic copy by 10:00am)

Problem:

Write a C++ program that will output information about you to the computer screen. The output should look like this (there must be a blank line between each item.):

Name: <your name>

Major: <your major, spelled out please>

Favorite Song: <put title in quotes. Artist name optional>

Replace the stuff in the angle brackets with your own information. Here's an example:

Name: Jill Seaman

Major: Computer Science

Favorite Song: "Here Comes the Sun" by The Beatles

Note: It's ok if the title is long and it wraps onto the next line.

Style:

See the Style Guidelines document on the course website (cs.txstate.edu/~js236/cs1428). Especially pay attention to the **comments** required for the top of the file:

```
// File Name:  
//  
// Author: (Your name here!!)  
// Date:  
// Assignment Number:  
// CS 1428.003 Fall 2014  
// Instructor: Jill Seaman  
//  
// <Brief description of the contents and purpose of the program>
```

Additional Requirements:

- Your program **must compile** and run, otherwise you will receive a score of 0. (You should test it yourself before submitting it).

Logistics:

Name your file **assign1_XXXXX.cpp** where XXXXX is your TX State NetID (your txstate.edu email id). The file name should look something like this: assign1_js236.cpp

There are two steps to the turn-in process:

1. Submit an electronic copy using the Assignments tool on the TRACS website for this class (tracs.txstate.edu).
2. Submit a printout of the source file at the beginning of class on the day the assignment is due. Please print your name on the front page.

See the assignment turn-in policy on the course website (cs.txstate.edu/~js236/cs1428) for more details.
